Mission

To provide a commercial platform for XRPL users through the development of a marketplace service powered by blockchain, web, and mobile.

Vision

To bring forth a more efficient and affordable blockchain technology, and marketplace to developing countries.

How it works?

The Power of 1MC's Circular Economic Ecosystem

Marketplace

Our Web based Store where users can pay for products and services with their 1MC Tokens.

Cashback

Users will be eligible to receive 1MC Tokens as a form of "cashback" depending on the type of transaction done in our marketplace.

The Circular Economic Ecosystem

All purchases made in our marketplace will be subject to fees, a portion* of these will serve to reincorporate the 1MC Tokens to the rewards system.

** Subject to change due to partnerships and/or other external factors.*

Rewards

A rewards program will be in place for our holders and community participants. With this we will ensure the growth of the 1MC ecosystem.

This will include but not limited to :

- » Referrals
- » Achievements (inside apps)
- » Enrollment
- » Transactions
- » Social engagement

Fees

All purchases made in the marketplace will be subject to fees, which will serve to reincorporate the 1MC tokens to the rewards system. The percentage of the fees will vary based but not limited to: supply and price valuation at the moment, partnerships, global events, external factors.

Exchanges

The 1MC token will be available for trading on DEXs as xrptoolkit.com, we will work further to introduce the token on other exchanges in the near future.

Sales

We will run a coin offering until full capitalization is reached, for which a total supply of 2.5 billion tokens will be allocated for this task. Once the maximum limit is reached, the remaining tokens (if any) will be converted back to reserve.

Transparency

We are aware of the importance of fund management and what the financing of a project implies; so an end of year report will be published on the token sales. This in order to maintain a relationship of trust.
